Visitors

100+
Seminars

The annual International Evaporation and Crystallization Conference

Organizers:

Zhenwei Exhibition Group

Partners:

Shanghai Chemical Industry Association | Shanghai Coatings and Dyestuff Trade Association
Shanghai Society for Advanced Materials | Jiangsu Pump & Valve Industry Association
Jiangsu Petrochemical Equipment Industry Association | Jiangxi Association of Environmental Protection Industry
Shandong Society for Environmental Sciences | Shandong Household Chemicals Industry Association
Fujian Petrochemical Equipment Industry Association | Nanjing Energy Saving and Environmental Protection Industry Association
Wenzhou Pipe Fittings Industry Association | Wenzhou Wenzhou Chamber of Commerce
Jingjiang Pump and Valve Industry Chamber of Commerce | Huizhou Petroleum and Chemical Industry Association
Jiaxing Port Area Petrochemical Association

Host

Guangzhou Zhenwei International Exhibition Co.Ltd

Evaporation and crystallization have strong power

The green and low-carbon transition is rapidly reshaping China's high-quality development landscape. In recent years, the output value of the energy-saving and environmental protection industry has grown at an average annual rate of over 10%, with China now leading the world in clean energy equipment manufacturing. As a critical chemical separation and crystallization technology, evaporation crystallization holds a significant share of the environmental protection market.

Create an annual event for evaporation and crystallization

The 18th Shanghai International Evaporation & Crystallization Technology Equipment Fair will be held from June 9 to 11, 2026 at the Shanghai New International Expo Centre. The event will be co-located with the 2026 China International Chemical Equipment Fair. With over 1,000 exhibitors, a 70,000-square-meter exhibition space, and an expected attendance of more than 100,000 professional visitors, this exhibition is set to be the premier annual event in the evaporation and crystallization industry.

Well-known companies such as Germany's Piller, Sysbio, Shanghai Minjie, Tianlian Technology, Wenzhou Jinbang, Lanwang Energy Saving, Datong Baofu, Shennong Shares, Shenzhen Ruishenghua, Blue Origin, and China Shipbuilding (Chongqing) have participated in the exhibition for many years, focusing on displaying the latest products and technologies in the field of evaporation crystallization at home and abroad.

- 01 Industry Conference** 18 Years of Refinement, Creating the Premier Evaporation & Crystallization Expo. Multi-Expo Synergy, Showcasing Cutting-Edge Equipment & Technologies.
- 02 Trade matching** Connecting chemical businesses through industry media, associations, 80+ chemical parks, Global Chemical 500 buyers, and 100K+ verified data points.
- 03 Global Links** Featuring 17+ international pavilions and 100+ renowned enterprises, showcasing specialized exhibits including evaporation & crystallization equipment, drying systems, heat exchangers, blowers & compressors, and more.
- 04 Industry Titans Gather** Featuring a high-level forum on evaporation & crystallization technologies, bringing together KOLs and technical experts from chemical environmental protection sectors to provide multidimensional analysis of industry trends.
- 05 Digital Empowerment** Boost brand value through one-stop livestreams, online sourcing, and tech showcases – redefining digital marketing excellence.
- 06 Official Authority** Authoritatively organized by national/provincial/municipal industry associations, learned societies and chambers of commerce in collaboration with China's largest private exhibition company.

Professional technology sharing pulse of industry development trends

The 2026 China Evaporation and Crystallization Industry Summit Forum was held at the same time as the exhibition. The summit set up more than 10 theme seminars, inviting more than 100 industry leaders from national ministries and commissions, national industry associations, chemical equipment companies, chemical production companies, chemical research institutes, and industry authoritative media to discuss industry hot spots and pain points, pulse of industry development trends, and achieve effective docking of resources, technology, information, and scientific and technological achievements.

- ◆ 2026 China Evaporation and Crystallization Summit Forum
- ◆ Evaporation and Crystallization and Brine Zero Discharge New Technology Application Forum
- ◆ Seminar on resource utilization of high-salt wastewater in the petrochemical industry
- ◆ Application of special membrane separation technology in industrial wastewater treatment and reuse
- ◆ Seminar on the selection and maintenance of pumps, compressors and centrifuges in evaporation and crystallization systems

CECF Experts promote high-quality development of the industry

Zhang Zhentao

PhD Supervisor, Technical Institute of Physics and Chemistry, Chinese Academy of Sciences

Fei Weiyang

Academician of the Chinese Academy of Sciences, Professor of Tsinghua University

Li Guangming

Professor of School of Environmental Science and Engineering, Tongji University

Yu Shuili

Professor of School of Environmental Science and Engineering, Tongji University

Yan Jianmin

Associate Professor, School of Chemistry and Chemical Engineering, Shanghai Jiao Tong University

Kong Fanxin

Associate Professor, School of Chemical Engineering and Environment, China University of Petroleum (Beijing)

Zhu Yongqiang

Director of the High-Difficulty Environmental Governance Engineering Technology Center of Shanghai University of Applied Technology

Wang Shuzhong

Professor, School of Energy and Power Engineering, Xi'an Jiaotong University

Wang Yanfei

Dean of the School of Chemical Engineering and Materials, Tianjin University of Science and Technology

Ma Luming

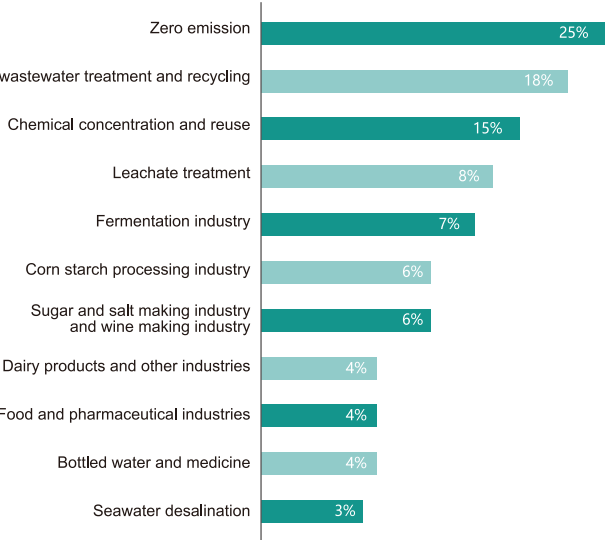

Executive Deputy Director of the National Engineering Research Center for Urban Pollution Control Professor

Exhibits Profile

Evaporator

MVR, thin film evaporation, short-range thin film, scraper film, centrifugal film, lifting film, rotary film, vacuum, external heating vacuum, external circulation vacuum, wastewater, graphite evaporation, multi-effect distilled water machine, pure steam, steam, steam jet pump.

Other evaporators

Evaporation station system, double-effect concentrator, glass liquid film evaporator, natural circulation tube type, total frame evaporator, Levin evaporator, forced circulation evaporator, concentration evaporation equipment, secondary steam recovery system, condensate recovery system, external heating evaporator.

Various types of crystallizers

Vacuum crystallizers, concentrated crystallization equipment, cooling crystallization equipment, isoelectric crystallization equipment, continuous casting crystallizers, graphite, continuous crystallizers, upcasting continuous casting machines, vacuum crystal boiling pots, vertical crystallization boxes, horizontal crystallization boxes, crystallization stirring devices.

Drying equipment

Rotary dryer, chain dryer, belt dryer, rotary flash dryer, blade dryer, drum tube dryer.

Water treatment equipment

Sewage treatment equipment, water purification equipment, seawater desalination equipment.

Related equipment

Stirring and mixing, separation and filtration, cooling technology and, condenser, concentration, vacuum, extraction, extrusion granulation, purification and distillation, fermentation, laboratory and pilot, air preparation and treatment.

Compressors and fans

Compressors, Roots blowers, centrifuges, industrial computers and PLC control systems, and frequency conversion technology.

Professional Visitors

With over 18 years of development, CECF 2026 attracted more than 100,000 visitors to the Fair from petrochemical, environmental watertreatment, pesticide and fertilizer, coating and dye, pharmaceutical industry, engineering companies, fine chemicals, research institution, association sand media, helping to promote the effectiveness of CECF 2026.

Concurrent exhibitions

Shanghai	Time: June 9-11, 2026 Shanghai New International Expo Center China International Chemical Equipment Fair 2026 The 18 th Shanghai International Chemical and Environmental Protection Fair The 18 th Shanghai International Petrochemical Pump, Valve and Pipeline Fair
-----------------	---

Exhibiting Costs

Exhibition Space	Shell Scheme (3m×3m): USD 4300 / 9m ² Facilities Include: back & insidewalls, carpet, lintel board, one consulting table, two chairs, two lights, and one power socket (220V, 5A).
	Raw Space (Mini.36m²) : USD 450 / m ²
Technical Seminar	Technical Seminar/ Product Promotion Session : USD 2100 / Session
