

CPVF 2027

The 19th Shanghai International Petrochemical & Chemical Pump, Valve and Pipeline Fair

3–5 June 2027

Shanghai New International Expo Centre

Organizer

Zhenwei International Exhibition Group Co., Ltd.

Supporting Organizations

Russian Chlor-Alkali Industry Association
Kazakhstan Chemical Industry Union
Kazakhstan Petroleum Enterprises Service Association
Egyptian Plastics Export & Manufacturers Association
Shanghai Chemical Industry Association
Shanghai Coatings & Dyestuffs Industry Association
Shanghai New Materials Association
Shanghai Instrument & Meter Industry Association
Shanghai Energy Conservation Association
Jiangsu Valve Industry Association
Jiangsu Petrochemical Equipment Industry Association
Shandong Chemical Information Association
Shandong Chlor-Alkali Industry Association
Shandong Daily Chemical Industry Association
Xinxiang County Vibration Machinery Industry Association
Dongying Special Equipment Association

Hebei Pipeline Equipment Manufacturing Association
Jingjiang Pump & Valve Industry Chamber of Commerce
Nanjing Energy-Saving & Environmental Protection Industry Association
Jiaxing Port Area Environmental Protection Association
Jiaxing Port Area Petroleum & Chemical Industry Association
Jiaxing Port Area Special Equipment Safety Management Association
Ningbo Rubber Chamber of Commerce
Wenzhou Pipe Fittings Industry Association
Wenzhou Wenzhou Chamber of Commerce
Wenzhou Food & Pharmaceutical Machinery Industry Association
Huizhou Petroleum & Chemical Industry Association
Xinxiang Vibration Engineering Society

Organizing Body

Guangzhou Zhenwei International

[Transformation and Upgrading Are the Trend, Deepening the High-End Petrochemical & Chemical Market]

As general mechanical products, pumps, valves and pipelines are widely used in all walks of national economic production. With the deepening of China's new industrialization, market demand for pumps, valves and pipelines continues to expand, and the industry has broad development prospects. As the most important application field for pumps, valves and pipelines, the petrochemical industry features high product added value and ample profit margins. During the 15th Five-Year Plan period, China's petrochemical and chemical industry is accelerating toward high-quality development, with upgrading and renovation of existing plants and layout of high-end capacity advancing in parallel, continuously releasing a new round of high-end pump, valve and pipeline procurement demand.

On the one hand, petrochemical and chemical products are diverse in variety with different production environment requirements, so procurement of pumps, valves and pipelines often requires personalized and customized supporting production. On the other hand, for reasons of safety, energy conservation and environmental protection, petrochemical and chemical enterprises have put forward higher requirements for product safety and reliability. Pump, valve and pipeline companies must continuously upgrade their manufacturing processes to meet the new development needs of the industry. Correspondingly, the petrochemical and chemical field offers higher profit margins, and winning the high-end petrochemical market has become the strategic "main battlefield" for pump, valve and pipeline companies.

[1,000 Famous Enterprises Gathering, Driving High-Quality Industry Development]

The 19th Shanghai International Petrochemical & Chemical Pump, Valve and Pipeline Fair will be held from 3 to 5 June 2027 at the Shanghai New International Expo Centre, concurrently with the 2027 China International Chemical Equipment Fair and the 19th Shanghai International Environmental Chemical Technology & Equipment Fair. It is expected to gather more than 1,000 exhibiting companies, cover an exhibition area of 70,000 m², and attract over 100,000 professional visitors. The organizer will continue the whole-industrial-chain exhibition philosophy, deeply tap industry resources, enhance the value of the Fair, and go all out to build the "Annual International Petrochemical & Chemical Pump, Valve and Pipeline Conference", creating an efficient platform for pump and valve companies to expand into the

petrochemical and chemical market and promoting the high-quality development of China's petrochemical and chemical industry.

The 19th Shanghai International Petrochemical & Chemical Pump, Valve and Pipeline Fair brings together a galaxy of famous enterprises. In the valve sector, well-known companies including Hanmida Valve, Runjiao Valve, Taiya Valve, Yuanda Valve, BOTELI, Lixin Valve, Liangong Valve, Newton Fluid, OVICK, Cameron, Youfumi, Yonglian Valve, Zhipeng Automatic Control Valve, Liangming Valve, Ance Valve, Xintai Valve, Xingwei Valve, Huaying Valve, Baoneng Valve and Weiduli Valve will gather, among which OVICK, Newton Fluid (VMV) and Qisheng are all national-level specialized, refined, distinctive and innovative "Little Giants", leading respectively in the ball valve, bellows steam trap and knife gate valve segments. In the pump sector, international brands and domestic leaders shine together: Swiss Sulzer, German Hermetic and Dalian Imperial Canned Motor Pumps lead the lineup, alongside backbone enterprises such as Hangzhou Alkali Pump, Xi'an Pump & Valve General Factory, Zhanggu (listed company), Sanfeng Turbine, Luyang Precision, Depam, Yongqiu Technology, Southern Chemical Pump, Anhui Tenglong, Lvhuan, Wolong Pump & Valve, Jian'an Pump Industry, Longquan Pump & Valve, Jinma Machinery, Tianma Machinery, Anshan Libang, Zhongda Motor, Fute Chemical Pump, Yongxin Technology and Aode, covering the full range of canned motor pumps, magnetic drive pumps, vacuum pumps, fan compressors, metering pumps and chemical process pumps. In the pipeline and fittings sector, quality suppliers including Russia Pipeline, Tianjin Steel Pipe, Qingshan Steel Pipe, Henkel, Aozhan Industry, Anhui Tiankang, Hebei Pengrun, Zhiju Pipe Industry, Zhitong Pipe Valve, Hongdi Pipe Fittings, Guangdong Shuangxing, Zhejiang Bosheng Steel, Zhejiang Longda Stainless Steel, Chuxin Flange, Longan Flange, Songxuan Flange, Zhongwu Steel Pipe, Ruishun Fluid and Xingqiu Anti-Corrosion will gather, covering the whole industrial chain of steel pipes, flanges, pipe fittings, fasteners, seals and anti-corrosion pipelines, presenting a top-level feast of "Made in China + International Brands" for the petrochemical and chemical industry.

[Locking In Core Buyer Groups, Comprehensively Ensuring Exhibition Results]

The organizer precisely grasps exhibitor needs, targets key industries and organizes core buyer groups. Through multiple channels including telephone, email, SMS, online promotion, social media, big-data marketing, media releases, ground promotion, door-to-door visits, domestic and overseas exhibitions, conference

sponsorship, media cooperation and industry association cooperation, we carry out 360° visitor invitation all year round to effectively guarantee exhibitor results.

Basic chemical raw materials: BASF, Dow Chemical Company, LyondellBasell Industries, Satellite Chemical Co., Ltd., Xinjiang Zhongtai Chemical Co., Ltd.

Fine chemicals and specialty chemicals: Shin-Etsu Chemical, Covestro, LANXESS, Clariant, Wanhua Chemical

Pesticides and fertilizers: Syngenta Group, Bayer Crop Science, UPL Limited (United Phosphorus India), ADAMA, Sumitomo Chemical

Chemical engineering design and EPC: Wood China, Toyo Engineering (Shanghai), Linde Asia-Pacific Engineering, China Tianchen Engineering, Sedin Engineering

Petrochemical: ExxonMobil, Rongsheng Petrochemical, Hengli Petrochemical, Shell, Aramco

Biochemical: Cathay Biotech, Hebei Huarun Biotech, Cabio Biotechnology (Wuhan) Co., Ltd., Bloomage Biotechnology, COFCO Biotechnology

Pharmaceutical chemistry: Asymchem, Zhejiang NHU Co., Ltd., United Laboratories, CSPC Pharmaceutical Group, Hengrui Medicine

New chemical materials (new energy and lithium battery materials): LG Chem (South Korea), Gotion High-tech, Huayou Cobalt, Xiamen Tungsten New Energy Materials Co., Ltd., Shida Shenghua

[Global Connections, Precise Matching to Bridge the Last Mile of Going Global]

CPVF 2027 continues to deepen its global layout, focusing on Belt and Road partner countries and covering key global chemical markets including the Middle East, Southeast Asia, Central Asia, Russia and South America. This edition works with official trade promotion agencies, industry associations and chambers of commerce, industry leaders and local professional exhibition platforms of various countries, securing in-depth participation from authoritative institutions in target markets such as Tatneft, Uralchem, PhosAgro, Samsung Engineering, ESM and Dovechem, building a global chemical whole-industry-chain connection network. Multiple international procurement matchmaking sessions will be held concurrently, including domestic procurement sessions and country-specific sessions for Vietnam, Kazakhstan, Russia,

Indonesia, Malaysia and more, with targeted invitations to professional buyers worldwide to precisely connect overseas distributors, traders, EPC general contractors and end-use chemical enterprises, helping exhibitors expand overseas efficiently and achieve rapid transformation from exhibits to commodities.

[Taking the Pulse of Green Transformation, Exploring Breakthroughs for Consumption Reduction]

Connecting global chemical equipment, accelerating domestic and international trade, and building the industry's future. CPVF 2027 will launch more than 10 high-end forums and thematic activities in segmented fields, focusing on core chemical energy-saving and consumption-reduction processes, frontier green chemical technologies and intelligent manufacturing deployment paths. We will invite leaders from relevant national ministries and commissions, academicians of the Chinese Academy of Sciences/Chinese Academy of Engineering, top university experts and professors, authoritative heads of industry associations, as well as representatives of international chemical leaders and domestic backbone equipment enterprises, to gather on-site for policy interpretation, in-depth technical discussions and benchmark case sharing, directly addressing industry pain points and delivering actionable systematic solutions for the high-quality development of the industry.

- ◆ China International Chemical Technology & Equipment Innovation and Development Conference

- ◆ 2027 Petrochemical & Chemical Fluid Conveying Systems and Energy-Saving Equipment Innovation Forum

- ◆ 2027 Chemical Enterprise Intelligent Operation & Maintenance and Energy Efficiency Improvement Seminar

- ◆ 2027 Seminar on Reliability Operation & Maintenance and Anti-Corrosion Technology for Pumps and Valves in Petrochemical & Chemical Plants

- ◆ 2027 Chemical Material Handling & Conveying Technology Application and Innovation Forum

- ◆ 2027 International Procurement Matchmaking Session

- ◆ Overseas Chemical Enterprise Procurement Exchange Day

- ◆ Provincial and Municipal International Procurement Matchmaking Sessions

- ◆ Local Government Investment Promotion Special Briefing Sessions

- ◆ The 4th China Chemical Technology & Equipment Golden Gear Award Ceremony

※ Partial forum programme

[Comprehensive Coverage by Hundreds of Authoritative Media, Enhancing Corporate Brand Reputation]

More than 100 mainstream domestic and international media and professional media outlets will provide comprehensive coverage of the Fair, helping exhibitors spread their corporate brands and enhance their reputation.

Central media: People's Daily Online, Xinhuanet, CCTV.com, China News Service, China Economic Net, Science and Technology Daily, etc.

Portal websites: Tencent, Sina, Sohu, NetEase, Phoenix, Toutiao, etc.

Pump and valve media: Zhongfa Media, Global Valves Network, Asia Fluid Network, Pump-Valve Business Network, China Pump & Valve Network, Pump Industry Network, Tianxia Fashang, Huayu Advertising (Mengcun/Yanshan), etc.

Chemical media: China Chemical Industry News, National Petroleum and Chemical Network, Japan Chemical Daily, U.S. Chemical Network, Process Industries (PROCESS), Lux Petroleum Network, Chemical 707, Guanghua Trade, Haichuan Chemical, HC Chemical Network, Guidechem, etc.

Environmental protection media: Polaris Environmental Protection, Environmental Protection Online, Guteng Environmental, First Environmental Protection Network, Dianlv, Wushuibao, Environmental Talent Network, etc.

■ If you are a supplier of the following products, please book your booth as soon as possible:

- 1、 Petrochemical & chemical pumps
- 2、 Petrochemical & chemical valves and actuators
- 3、 Pipes, pipe fittings and flanges
- 4、 Seals, fasteners and supporting products
- 5、 Anti-corrosion, insulation and engineering services

■ Fee Schedule:

Item	Price / Area	Standard Configuration / Specifications
Standard Booth (9 m ²)	RMB 30,000 / booth / exhibition period	(1) Booth area: 9 m ² (3 m × 3 m) (2) Booth equipment: one consultation desk, two folding chairs, three partition walls, carpet, fascia board, fluorescent lighting, power socket (special power supply must be applied to the venue and is charged separately).
Raw Space (Space Only)	Domestic zone: RMB 1,580 / m ² Overseas zone: RMB 3,200 / m ²	(1) Minimum area: 36 m ² ; no facilities provided; special decoration management fee: RMB 40 / m ² . (2) Exhibitors must use the designated booth contractor appointed by the organizing committee.
Technical Seminar	RMB 30,000 / session	Including venue, audio equipment, projector, on-site signage, and water, etc.
Other Advertising	Print advertising, electronic advertising, on-site advertising, conference sponsorship	Please consult the organizing committee for specifications.
Procurement Matching Sessions	Exhibitor-exclusive preferential price Domestic sessions: RMB 2,500 / person / session International sessions: RMB 6,000 / person / session * Note: The above are exhibitor-exclusive prices. Non-exhibitors can enjoy the same matching services at twice the price of the corresponding session.	Domestic sessions: pre-matching of core buyer needs, exclusive negotiation area, and on-site matching guidance. International sessions: targeted invitation of overseas buyer delegations with precise supply-demand matching.

Exhibition Procedure and Contact Information

Exhibition procedure — companies wishing to register for the Fair should complete the Application Form for Exhibition, affix their official seal, and return it to the organizer.

Contact person: Ms. Chen

Address: Room 401 & 405, Fengpu Science & Technology Plaza, No. 2433 Xingang East Road, Haizhu District, Guangzhou, China

For more details, please feel free to contact the organizer:
