

CEEFF 2027

The 19th Shanghai International Environmental Chemical Technology & Equipment Fair

3–5 June 2027

Shanghai New International Expo Centre

Organizer

Zhenwei International Exhibition Group Co., Ltd.

Supporting Organizations

Russian Chlor-Alkali Industry Association
Kazakhstan Chemical Industry Union
Kazakhstan Petroleum Enterprises Service Association
Egyptian Plastics Export & Manufacturers Association
Shanghai Chemical Industry Association
Shanghai Coatings & Dyestuffs Industry Association
Shanghai New Materials Association
Shanghai Instrument & Meter Industry Association
Shanghai Energy Conservation Association
Jiangsu Valve Industry Association
Jiangsu Petrochemical Equipment Industry Association
Shandong Chemical Information Association
Shandong Chlor-Alkali Industry Association
Shandong Daily Chemical Industry Association
Xinxiang County Vibration Machinery Industry Association
Dongying Special Equipment Association

Hebei Pipeline Equipment Manufacturing Association
Jingjiang Pump & Valve Industry Chamber of Commerce
Nanjing Energy-Saving & Environmental Protection Industry Association
Jiaxing Port Area Environmental Protection Association
Jiaxing Port Area Petroleum & Chemical Industry Association
Jiaxing Port Area Special Equipment Safety Management Association
Ningbo Rubber Chamber of Commerce
Wenzhou Pipe Fittings Industry Association
Wenzhou Wanzhou Chamber of Commerce
Wenzhou Food & Pharmaceutical Machinery Industry Association
Huizhou Petroleum & Chemical Industry Association
Xinxiang Vibration Engineering Society

Organizing Body

Guangzhou Zhenwei International

[A New Era for the Chemical Industry, “Green” Upgrade Is the Trend]

During the 15th Five-Year Plan period, China has entered a critical stage focused on carbon reduction as a strategic priority, promoting synergistic efficiency in pollution and carbon reduction, and driving the comprehensive green transformation of economic and social development. With the deepening implementation of the “dual carbon” goals, policies such as the Comprehensive Work Plan for Energy Conservation and Emission Reduction during the 15th Five-Year Plan Period and the Three-Year Action Plan for Energy Conservation and Carbon Reduction Renovation in Key Industries have been intensively rolled out, raising higher requirements for industrial restructuring, energy efficiency improvement and source emission reduction, accelerating the green and low-carbon transformation of the chemical industry and the emergence of new processes, equipment and products in the environmental treatment field.

As the world’s largest chemical producer, China has complex production processes, numerous pollution-generating links and complex pollutant compositions, making the task of “three wastes” (wastewater, waste gas and solid waste) treatment still arduous. At present, China’s environmental supervision system is increasingly complete, and the environmental protection industry has moved from policy-driven to a new stage of high-quality development, with comprehensive treatment standards for water, air, solid waste and soil continuously upgraded. Under this trend, greening and low-carbon development have become the only path for the high-quality development of the chemical industry.

[Focusing on Chemical Three-Wastes Treatment, Promoting Green Development of the Chemical Industry]

The 19th Shanghai International Environmental Chemical Technology & Equipment Fair will be held from 3 to 5 June 2027 at the Shanghai New International Expo Centre, concurrently with the 2027 China International Chemical Equipment Fair. It is expected to gather more than 1,000 exhibiting companies, cover an exhibition area of 70,000 m², and attract over 100,000 professional visitors. The organizer will go all out to build the “Annual International Chemical Three-Wastes Treatment Conference”, providing comprehensive environmental solutions for chemical enterprises.

Well-known enterprises including Shanghai Electric, Shengu Group, Thermo Fisher, Jiuwu Hi-Tech, Veolia, Baolan Environmental Protection, Haiyite Heavy

Industry, Fujie Environmental, Fuyu Water, Xiyuan Environmental, Haishen Electromechanical, Huashijie, Enguo Environmental, Xitu Environmental, Fengyuan Environmental, Lanwang Energy Saving, Youbei Electric, Yimiant, Xinsheng Environmental, Qiaofa Environmental, Cijie Environmental, Zhanliu Environmental, Ruida Environmental, Ruishenghua, Gaojie, Shennong Shares, Lanbin Petrochemical, Myande, Aige Environmental, Dewei Turbine, Blue Origin, Weihai Runlan, Kangjinghui, Jinlong, Shengbao, Dahua, Kaixiang Heat Transfer, Xinfeng, Jipu, Baisheng Environmental, Pujing, Xurihua, Jingyu Environment, Tianwei Membrane, Zhongtian Environmental, Honghe, Shidai New Environment, Chentai Environment, Yuchang Environment, Yijie Environment, Dazhang Filtration, Tongze Filtration, Hongjing Environmental, Hengyu Environmental, Weisiyi Energy Saving, Chaoqi Environment, Leilei Filtration, Membrane Bio, Lantian Aoyu, Tianyi Extraction, Huanmei, Chaoxu, Longantai, Yuehua Environmental, Jiangsu Ruiding and Gesaite will appear at the Fair, showcasing advanced technologies and equipment for chemical three-wastes treatment.

[Global Connections, Precise Matching to Bridge the Last Mile of Going Global]

CEEF 2027 continues to deepen its global layout, focusing on Belt and Road partner countries and covering key global chemical markets including the Middle East, Southeast Asia, Central Asia, Russia and South America. This edition works with official trade promotion agencies, industry associations and chambers of commerce, industry leaders and local professional exhibition platforms of various countries, securing in-depth participation from authoritative institutions in target markets such as Tatneft, Uralchem, PhosAgro, Samsung Engineering, ESM and Dovechem, building a global chemical whole-industry-chain connection network. Multiple international procurement matchmaking sessions will be held concurrently, including domestic procurement sessions and country-specific sessions for Vietnam, Kazakhstan, Russia, Indonesia, Malaysia and more, with targeted invitations to professional buyers worldwide to precisely connect overseas distributors, traders, EPC general contractors and end-use chemical enterprises, helping exhibitors expand overseas efficiently and achieve rapid transformation from exhibits to commodities.

[Technical Sharing and Intellectual Exchange, Taking the Pulse of Industry Development Trends]

Connecting global chemical equipment, accelerating domestic and international

trade, and building the industry's future. CEEF 2027 will launch more than 10 high-end forums and thematic activities in segmented fields, focusing on core chemical energy-saving and consumption-reduction processes, frontier green chemical technologies and intelligent manufacturing deployment paths. We will invite leaders from relevant national ministries and commissions, academicians of the Chinese Academy of Sciences/Chinese Academy of Engineering, top university experts and professors, authoritative heads of industry associations, as well as representatives of international chemical leaders and domestic backbone equipment enterprises, to gather on-site for policy interpretation, in-depth technical discussions and benchmark case sharing, directly addressing industry pain points and delivering actionable systematic solutions for the high-quality development of the industry.

◆ China International Chemical Technology & Equipment Innovation and Development Conference

◆ The 9th Seminar on Advanced Treatment and Recycling of High-Concentration Chemical Wastewater

◆ 2027 Chemical Enterprise Intelligent Operation & Maintenance and Energy Efficiency Improvement Seminar

◆ 2027 Comprehensive Treatment of Chemical Organic Waste Gas Seminar

◆ 2027 Intelligent Plant Construction Seminar

◆ 2027 International Procurement Matchmaking Session

◆ Overseas Chemical Enterprise Procurement Exchange Day

◆ Provincial and Municipal International Procurement Matchmaking Sessions

◆ Local Government Investment Promotion Special Briefing Sessions

◆ The 4th China Chemical Technology & Equipment Golden Gear Award Ceremony

※ Partial forum programme

[Comprehensively Locking In Core Buyers, Securing Professional Visitors through Multiple Channels]

The organizer precisely grasps exhibitor needs, targets key industries and organizes core buyer groups. Through multiple channels including telephone, email, SMS, online promotion, social media, big-data marketing, media releases, ground promotion, door-to-door visits, domestic and overseas exhibitions, conference sponsorship, media cooperation and industry association cooperation, we carry out 360° visitor invitation to effectively guarantee exhibitor and livestreaming results.

Basic chemical raw materials: BASF, Dow Chemical Company, LyondellBasell Industries, Satellite Chemical Co., Ltd., Xinjiang Zhongtai Chemical Co., Ltd.

Fine chemicals and specialty chemicals: Shin-Etsu Chemical, Covestro, LANXESS, Clariant, Wanhua Chemical

Pesticides and fertilizers: Syngenta Group, Bayer Crop Science, UPL Limited (United Phosphorus India), ADAMA, Sumitomo Chemical

Chemical engineering design and EPC: Wood China, Toyo Engineering (Shanghai), Linde Asia-Pacific Engineering, China Tianchen Engineering, Sedin Engineering

Petrochemical: ExxonMobil, Rongsheng Petrochemical, Hengli Petrochemical, Shell, Aramco

Biochemical: Cathay Biotech, Hebei Huarun Biotech, Cabio Biotechnology (Wuhan) Co., Ltd., Bloomage Biotechnology, COFCO Biotechnology

Pharmaceutical chemistry: Asymchem, Zhejiang NHU Co., Ltd., United Laboratories, CSPC Pharmaceutical Group, Hengrui Medicine

New chemical materials (new energy and lithium battery materials): LG Chem (South Korea), Gotion High-tech, Huayou Cobalt, Xiamen Tungsten New Energy Materials Co., Ltd., Shida Shenghua

[Comprehensive Coverage by Hundreds of Authoritative Media, Enhancing Corporate Brand Reputation]

More than 100 mainstream domestic and international media and professional media outlets will provide comprehensive coverage of the Fair, helping exhibitors spread their corporate brands and enhance their reputation.

Central media: People's Daily Online, Xinhuanet, CCTV.com, China News Service, China Economic Net, Science and Technology Daily, etc.

Portal websites: Tencent, Sina, Sohu, NetEase, Phoenix, Toutiao, etc.

Environmental protection media: Polaris Environmental Protection, Environmental Protection Online, Guteng Environmental, First Environmental Protection Network, Dianlv, Wushuibao, Environmental Talent Network, etc.

Chemical media: China Chemical Industry News, National Petroleum and Chemical Network, Japan Chemical Daily, U.S. Chemical Network, Process Industries (PROCESS), Chemical 707, Guanghua Trade, Haichuan Chemical, HC Chemical Network, Guidechem, etc.

■ **If you are a supplier of the following products, please book your booth as soon as possible:**

1. Industrial wastewater treatment and sludge treatment technologies and equipment

1.1 Wastewater treatment equipment

Complete wastewater treatment systems, air flotation treatment systems; agitators, grilles; seawater desalination (desalination technology); oil-water separation equipment; water treatment chemicals; aeration and aerobic/anaerobic treatment devices; evaporation crystallization engineering, technology and equipment, supporting service providers, etc.;

1.2 Sludge treatment technologies and equipment

Sludge treatment technologies and equipment, sludge dewatering equipment, sludge drying equipment, mixing equipment, solid-liquid separation equipment, filter presses, centrifuges, blowers, sand suction machines, mud scrapers, mud suction machines, electrolytic treatment equipment, aerobic/anaerobic treatment devices, others, sludge dewatering and solidification, sludge drying and incineration, sludge reuse;

1.3 Membrane technology/membrane treatment equipment/related supporting products

Membrane modules, membrane separation technology, equipment and services, membrane housings, membrane supporting equipment, ultrapure water equipment, water softening equipment, filtration equipment, industrial pure water machines, reclaimed water recycling, seawater desalination and utilization, zero-liquid-discharge processes for high-salinity wastewater, landfill leachate treatment, others;

2. Industrial waste gas recovery and treatment technologies and equipment

2.1 Industrial waste gas treatment equipment

Waste gas treatment engineering, complete waste gas treatment systems, waste gas cooling equipment, air extraction and exhaust equipment, deodorization treatment equipment and systems, waste gas recovery and utilization devices and technologies, measurement and monitoring, control and laboratory technologies, etc.;

2.2 Industrial soot and dust treatment technologies and equipment

Industrial soot and dust treatment technology equipment, flue gas desulfurization and denitrification, dust removal equipment/dust collection technology and equipment, filter media, packing, electric control devices, valve devices, coal-fired power plants, boiler ultra-low emission technologies, other related products and equipment, etc.;

3. Hazardous and solid waste disposal technologies and equipment

Solid waste treatment equipment, incinerators/boiler equipment, leachate treatment, recycling and reuse treatment and technologies, crushing equipment, screening equipment, sorting equipment, compaction equipment, baling equipment, heat treatment equipment, landfill gas utilization and technologies, design/consulting/certification/management, etc.;

4. Industrial cleaning and fluid equipment

Water supply pumps, valves, actuators and accessories, pipeline installation equipment, pipeline cleaning equipment, inspection and cleaning, pipeline leak prevention equipment and technologies;

5. Other chemical energy-saving and environmental protection solutions, technical consulting services, etc.

■ Fee Schedule:

Item	Price / Area	Standard Configuration / Specifications
Standard Booth (9 m ²)	RMB 30,000 / booth / exhibition period	(1) Booth area: 9 m ² (3 m × 3 m) (2) Booth equipment: one consultation desk, two folding chairs, three partition walls, carpet, fascia board, fluorescent lighting, power socket (special power supply must be applied to the venue and is charged separately).
Raw Space (Space Only)	Domestic zone: RMB 1,580 / m ² Overseas zone: RMB 3,200 / m ²	(1) Minimum area: 36 m ² ; no facilities provided; special decoration management fee: RMB 40 / m ² . (2) Exhibitors must use the designated booth contractor appointed by the organizing committee.
Technical Seminar	RMB 30,000 / session	Including venue, audio equipment, projector, on-site signage, and water, etc.
Other Advertising	Print advertising, electronic advertising, on-site advertising, conference sponsorship	Please consult the organizing committee for specifications.

Item	Price / Area	Standard Configuration / Specifications
Procurement Matching Sessions	Exhibitor-exclusive preferential price Domestic sessions: RMB 2,500 / person / session International sessions: RMB 6,000 / person / session * Note: The above are exhibitor-exclusive prices. Non-exhibitors can enjoy the same matching services at twice the price of the corresponding session.	Domestic sessions: pre-matching of core buyer needs, exclusive negotiation area, and on-site matching guidance. International sessions: targeted invitation of overseas buyer delegations with precise supply-demand matching.

Exhibition Procedure and Contact Information

Exhibition procedure — companies wishing to register for the Fair should complete the Application Form for Exhibition, affix their official seal, and return it to the organizer.

Contact person: Ms. Chen

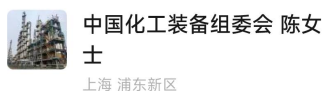

Address: Room 401 & 405, Fengpu Science & Technology Plaza, No. 2433 Xingang East Road, Haizhu District, Guangzhou, China

For more details, please feel free to contact the organizer:
